

# CURATIVE PEDAGOGUES IN NURSERY SCHOOLS

**The work of the curative pedagogues is free of charge for the parents in the facilities of the city of Starnberg.**

## WHY ARE THERE CURATIVE PEDAGOGUES IN NURSERY SCHOOLS?

**Curative pedagogues help children and parents.**

- Every child should be able to learn well in kindergarten and school.
- Every child should feel comfortable there.
- We look at what every child needs.
- We help employees in kindergarten.
- We support parents.
- We answer their questions.
- We can also discuss the help with doctors and counselling centres.

## HOW DO CURATIVES PEDAGOGUES HELP?

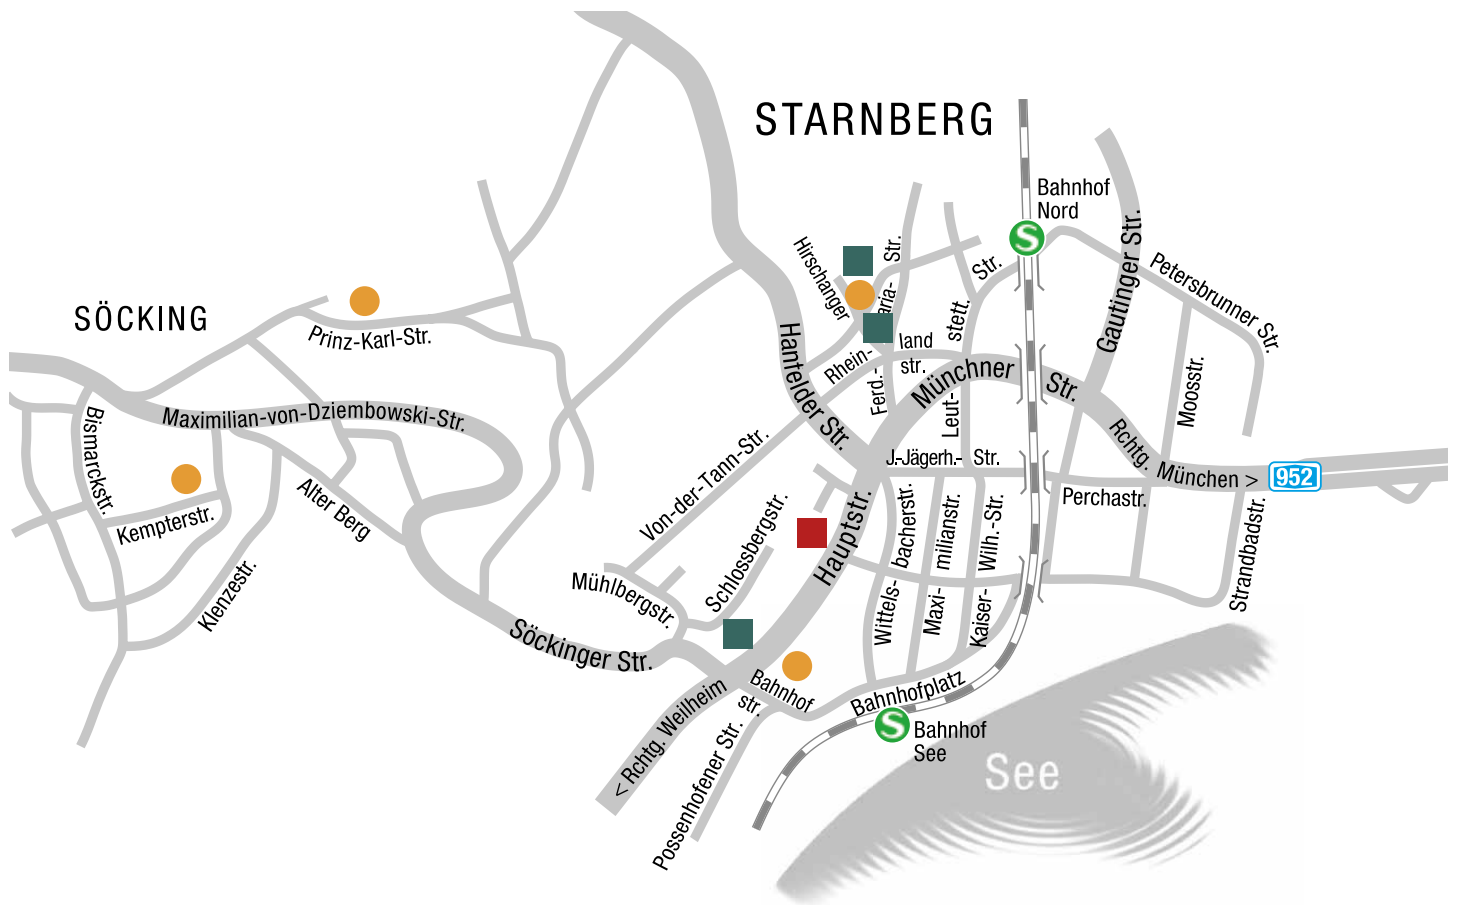

Curative pedagogues look at what children can do well.  
They take a close look at what is still difficult.

Than we will help at:

	learning		crafting and writing
	talking		being attentive
	calculating		gymnastics

Curative pedagogues are listening:

	When the child is sad or angry
	When the child is afraid or worried

## CONTACT:

Our team consists of curative pedagogues, a learning therapist and a language specialist.
